Language Matters

The restart plan outlines a differentiated continuum of support **for** schools and districts instead of using labels to define schools **as** something). The continuum of support models is comprised of:

- Schools Identified **for** Local Support and Improvement (LSI; previously called “Good Standing”)
- Schools Identified **for** Targeted Support and Improvement (TSI)
- Schools identified **for** Additional Targeted Support and Improvement (ATSI)
- Schools Identified **for** Comprehensive Support and Improvement (CSI)

Shifting from Good Standing to Local Support and Improvement (LSI)

NYSED recognizes that **all** schools across the state are engaged in efforts around continuous improvement to ensure equitable opportunities and improved outcomes for all students. It is within this context that LSI was created as part of the continuum for support.

Schools identified for LSI (formerly known as "Good Standing"):

- Continue to have no regulatory requirements under ESSA.
- Should continue within their local continuous improvement infrastructure.
- Have access to all NYSED tools, resources, and statewide support sessions should they choose to create or build upon local continuous improvement infrastructure.
- Are not identified for additional support from NYSED and do not need to create an improvement plan.
