

Wyandanch Memorial High School

We at Wyandanch Memorial High School recognize at this time of the Covid 19 crisis, students are lacking in social interactions. To support our students, the School Psychologist, Social Worker, and Guidance Counselors have implemented Social Emotional Fridays on the Google Classroom Distance Learning platform. It is designed to support scholars on each grade level. Also, the core teachers are utilizing the NYSED Social Emotional Learning Benchmark rubric as a resource to support Distance Learning lessons crafted to meet the needs of all students on a daily basis.

Social Emotional Learning Fridays provide scholars with multiple opportunities to engage in learning activities, and focused group discussions guided by WMHS SEL Support Team from 11:00 AM to 12:00 PM. Weekly tasks and or assignments are designed to encourage healthy behaviors and support social emotional wellness

Our goal is to forge a positive virtual learning environment to increase student participation each week, and strike a balance between academic expectations and healthy social emotional outlets.

Thank you.
